## Dial Thermometers

## THERMOMETERS

### DIAL THERMOMETERS

Maple Syrup Scale dial thermometers have a 1/4" MPT thread and a dial range of 0° to 50°, with 0° being the boiling point of water. The dial face is specially marked at the syrup finish point of 7° above the boiling point of water. Available in 2 face sizes and stem lengths.

|-----------|----------------|-------|----------|
| 42-0500   | Sap (0-10°)    | ---   | -\$98.00 |
| 42-0500-A | Sap (0-18°)    | ----- | -98.00   |
| 42-0501   | Syrup (45-82°) | ---   | -98.00   |

### Pocket Refractometers

Lightweight and small in size, these digital pocket refractometers transport easily. Feature automatic temperature compensation within a standard temperature range. Use plain water to clear to zero.

Water resistant for easy, under the faucet cleanup!
